

RRA and CMC Theory and Publications

Thelen, D.G., Anderson, F.C. **Using computed muscle control to generate forward dynamic simulations of human walking from experimental data.** Journal of Biomechanics, 39, 1107-1115, 2006. [Download PDF Document](#)

Thelen, D.G., Anderson, F.C., Delp, S.L. **Generating dynamic simulations of movement using computed muscle control.** Journal of Biomechanics, 36, 321-328, 2003. [Download PDF Document](#)

John C., **RRA Calculation notes to adjust the mass center of a model** (2008). [Download PDF Document](#)

Anderson, F.C., John, C.T., Guendelman, E., Arnold, A.S. **SimTrack: Software for rapidly generating muscle-actuated simulations of long-duration movement.** ISOBME 2006 Abstract. [Download PDF Document](#)
